

## Tough Radiation-Resistant Filament

Z-PEEK is one of the strongest polymers on the planet. It has strength-to-weight ratio comparable to stainless steel and exceptional thermal properties. The material can withstand thermal-cycling in vacuum chambers used for space-qualification tests, radiation, or wear in over 22 million cycles in PEEK-steel gear pairs working at 1600 rpm.

### Applications

- space-industry components,
- out-of-cabin aircraft components,
- radiation-resistant parts,
- abrasion-resistant mechanical parts.
